MEMORANDUM FOR ALL DDC EMPLOYEES

SUBJECT: DLA Director's Policy Statement Prohibiting Religious and National Origin Discrimination

I strongly support the DLA Director's policy prohibiting religious and national origin discrimination, and I expect commanders and supervisors to provide aggressive leadership and to guard against unlawful workplace discrimination against Arab-American, Muslim as well as all other employees. I expect all employees to treat each other with respect and tolerance for their beliefs, and I will not tolerate racial slurs and harassment against innocent people based solely on their religion or national origin now, or at any time.

Any employee who is a victim of harassment or intimidation based on national origin, religion or ethnicity, or any employee who witnesses such discrimination should report the incident to their supervisor immediately. Employees may also report incidents directly to the DDC Equal Employment Manager at DSN 977-4128, or to any EEO Specialist.

I am counting on all DDC employees to work together in harmony during this time when mission accomplishment is so critical.

JAMES H. PILLSBURY
Brigadier General, USA
Commander
